

Campo de Trabajo Huancavelica (Perú)

Julio 2000

THE SUN TEMPLE
1440-1533 INCA CULTURE

It is formed by six massive bricks walls placed one over the others in decreasing way . On the top these walls the temple was built with many rooms . Because of the shape of this massive platform, it seems to be just a pattern of the building.

There was only a door to foot up and a large stone stairway. This door had east position and the stairway goes in ten or twelve circuits with its steps and door well painted.

Bernabé Cobo 1596.
